

ECR #	Type	Module/Program	Requested Change:	Change Summary:
23849	Enhancement	Order Entry Add Lot Qty to Print SO cursor	Add the quantity per lot to the Print SO Cursor	Add setup option SOPRINTLOTQTY, if set add the qty into the lotalloc field LOT# (QTY),
23787	Enhancement	Bill of Lading Add field to BOL	Need a way to enter a freight billing address onto BOL on the fly. Add an address field on BOL screen that will override any of the freight rules.	Add new BF fields (manual address for billing Frt). Change print logic to use address if filled out.;
23847	Enhancement	Accounts Receivable Apply Cash Receipts	Add new column to bottom grid, "DiscOfferOnInv", that shows billmast.possdisc.	Add PossDisc to lower grid as read only field
23569	Enhancement	Roll Former Integration Connex Test	Add SO Date to connex order import file to use as schedule date.	Add SO date into Orders import file as SCHEDULE. Build new version of ADJAMS process; Change format of schedule date to match new spec (MM/DD/YYYY/HH/MM/SS) Upload new version to Taylor server;
23846	Enhancement	Accounts Payable Cycle Count Adjustments	Change program to NOT make adjustments to coil when adjusted amount is less than 1 (no change to itemtrack and no change to costsi).	Add new setup option, IGNORELESSONE. If set and count diff is less than one, then do not make any inventory changes.
23462	Enhancement	System Manager Generate XML 810s	Create process to generate XML 810s.	
23815	Enhancement	Quoting Numbering system	Create setup option to make copied RFQ number the original number + counter or revision number. I.e. first copy will be XXXX-1 and second will be XXXX-2, and so on. If copy is made of a copy apply the same logic of XXXX-1-1.	Add new setup option (RFQCOPYNUMBER) that makes the new quote number the old quote number with a -999 on the end.

ECR #	Type	Module/Program	Requested Change:	Change Summary:
23564	Enhancement	Address Book Org Merge	Do not add delete suspect data to Main Org if Main Org already has suspect data. Update and mark as inactive.	Only move suspect if master org does not have one, else update with new ID and mark is not active.
23779	Enhancement	Order Entry Print SO Cursor	Add Pack Qty from the itemmaster table to the Print SO screen.	Add packqty to cursor in PrintSO and PDF maker
23838	Enhancement	Order Entry Produce Qty (s2p)	Add setup option S2PSTOCKQTY- When user S2Ps the Sales Order, if there is not enough stock to pull the entire order, then the "Produce Quantity" should default to the order total	Add S2PSTOCKQTY setup option, if set the qty2make will be set to the order qty if the order qty < on hand qty, else will be set to 0, pull from stock will be set to order qty.
23848	Enhancement	Warehouse Management System Prompt 74 Auto Bundle Logic	<p>Add logic to 74 auto bundle which will ask a prompt for # of bundles, then # of total pieces in EACH bundle. The prompt will ask how many pieces for every bundle except the last bundle (the remaining pieces will go into that bundle)</p> <p>Example: There are 24 pieces on an order.</p> <p>Go into 74, scan so, scan line:</p> <p>Prompt: How many bundles? 3,enter</p> <p>Prompt: How many pieces in bundle 1? 10,enter</p> <p>Prompt: How many pieces in bundle 2? 10,enter</p> <p>Auto Logic: Remaining 4 go into the 3rd bundle, hard stop at the TOTAL QTY of the line (cannot pack more than what is in line).</p>	Add new # logic to auto pack boxes. Prompt for number of boxes, type of labels to print. Then prompt for box details. Then for each box, ask how many to pack. Pack remainder in last box.

ECR #	Type	Module/Program	Requested Change:	Change Summary:
23777	Enhancement	Quoting Quote and item swap	Add item swap capability to quote screen. Apply SOSWAPITEM setup logic to the RFQ screen.	Add Itemswap logic to RFQ screen.;
23842	Enhancement	Quoting RFQ and SO default SO type	Change logic to allow user default SO/RFQ type to be new SO/RFQ type in all cases if set. Change SOLDTO allow reset of Default SO type back to none (blank)	Change logic so that User based default SO and RFQ types are used if set, unless soldto has default order type, then that is used instead. ;
23783	Enhancement	Item Control (Inventory) Scrap Qty Clean Up	Add Lot# filter to Scrap Qty Clean Up screen. Auto-select the record on lost focus when there is a single match in the grid (single match for that lot).	Add lot filter. If only 1 matching record, set selected value to checked.
23811	Enhancement	Order Entry Skip Processing Flag logic	Add a set up option for the Skip Processing flag to prevent the invoice from being built in order to hold off invoicing until order has completely shipped.	Add a set up option for the Skip Processing flag to prevent the invoice from being built in order to hold off invoicing until order has completely shipped.; (HOLDINV CID option) Add same logic to manualship and projship.
23461	Enhancement	System Manager XML conversion process	Create process to read XML 850s and convert to EDIPOH/EDIPOD format.
