Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Accounts Payable

| 29778
Positive Pay Format | A new format for the Positive Pay report has been created to match the required file format for BBVA Compass Bank. The new format code is ATPP. | |

Wiki Link: http://www.abiscorp.com/AdjWiki/apmakepp.ashx?   Rule Maintenance: PPFORMAT

Accounts Receivable

| 29818
Cash Receipt | Change logic to allow for auto apply to run when cash to apply equals zero. This allows users to apply credits and adjust remaining balances in one screen within the Apply Cash Receipts screen. | |

Address Book

| 29700
Org Air Hammer | A new Project column has been added to the Payments tab of the Organization Air Hammer. This column will display the Project number entered on the AP Invoice GL Distributions tab. If the payment is for more than one Project, the column will display "Multi". Double clicking "Multi" will display a list of the Project numbers. | |

Auto Alert

Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Auto Alert

| 29842
Phase Status Event | A new dynamic event has been added that is triggered when a Phase Status is changed. The event code is PHASE-STAT-XX where XX is the new status code.
This new feature requires that the custom MSNPHASESTATUS option is enabled to allow tracking individual project phases statuses. To determine whether this enhancement is right for your operations, consult with your Implementation Consultant. | Setup Options: MSNPHASESTATUS |

Email Integration

| 29850
Email Templates | Additional data fields are available for the User Info data source in Email Templates that show more address details from the logged-in user's associated company. The new fields are address1, address2, city, state, zipcode, and citystate. | |

Invoicing/Shipping

| 28406
Invoice Signature Capture | Users can now use Topaz signature pads to capture and print from the AR Invoice Master screen using the new 'CS' button. Proper Topaz drivers must be installed on each workstation using the signature capture to use the new functionality. | |

Item Control (Inventory)

Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Item Control (Inventory)

29667 Item Attributes	A new item attribute (TASKFLATRATE) has been added to allow billing specific items on top of the quoted Flat Rate for a task. The logic to allow billing additional amounts on top of the quoted flat rate is enabled with new TSEXTRAFLAT setup option.	Setup Options: TSEXTRAFLAT
Wiki Link:	http://www.abiscorp.com/AdjWiki/rule-setup.ashx?NoRedirect=1#T_19	
29741 Shipping Event Allocation	Coil Finder will now show coils that have been transferred on a Shipping Event with a yellow highlight. The Lot tab in Item Masterer will also show Shipping Event transferred items with a yellow highlight.	
29742 Coil Allocation	New setup option PWOALLOCLOT, will automatically allocate lot numbers of produced coil to the sales order linked to the production work order.	Setup Options: PWOALLOCLOT
Wiki Link:	http://abiscorp.com/AdjWiki/rule-setup.ashx	

MBS Integration

29640 MBS BOM Import	Add set up option, MBSADJDESC, to set the default radio button to start on second option "Save Adjutant Descriptions" in the MBS BOM Import Grid (MBSGRID) screen.	Setup Options: MBSADJDESC
Wiki Link:	http://www.abiscorp.com/adjwiki/rule-setup.ashx?HL=setup,options	

Order Entry

Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Order Entry

29649 Sales Order Grid	This change adds the ability to filter results on the Sales Order Grid by sales order type. The new sales order type filter is a multi-select box which allows users to filter the grid to show multiple types at once.	
Wiki Link:	http://www.abiscorp.com/AdjWiki/SOGRID.ashx?	

29652 Point of Sale scanning	This change adds a setup option (SOSCANUPC) that enables scanning an item's UPC code to place it on a sales order.	Setup Options: SOSCANUPC
Wiki Link:	http://www.abiscorp.com/AdjWiki/Point-of-Sale-Scanning.ashx?	

29698 Price Update	New setup option (SOUPSPRICE) will recalculate the sell price every time the user changes the pricing unit.	Setup Options: SOUPSPRICE
Wiki Link:	http://abiscorp.com/AdjWiki/rule-setup.ashx	

Production

29740 Profile Production Scheduling	The Add Date of the PWO has been added to the Profile Production Scheduler screen as a new column, allowing the user to sort from oldest to newest work orders.	

Project Management

29606 Project Grid	The Project Grid has a new filtering option to display project records or project phases based on a standard task being linked to the project or phase. The standard task code is set up in the new Project Grid Task Filter (MSNGRIDTASK) Rule Maintenance record. Projects can be filtered based on a closed, open, or both open and closed linked standard task.	Rule Maintenance: MSNGRIDTASK
Wiki Link:	http://www.abiscorp.com/AdjWiki/MSNGRID.ashx	

Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Project Management

29687 Project Review Report	The Project Review Report is now available as a DrillDown report. Drill down links are available for the project number, the project phase name (drills to the Phases tab), the customer number, and the shipto number. Existing customized Project Review reports will need some modifications in order to take advantage of the DrillDown feature.	
29688 Project Review Report	The 'notelist' expression on the Project Review Report has been updated to filter out HTML formatted note entries tied to Project records. This enhancement keeps the notes that show on the Project Review Report limited to project notes, rather than HTML code tied to email transactions.	
29750 Time & Expenses	The Time and Expenses tab of Project Control now has a Total Cost field to display Labor Cost information from tasks.	
29826 Project Grid	The Project Grid will now remember the last filters used by each user and load those settings the next time the screen is launched.	
29840 Project Review Report	Update the Project Review UDF Questions (PROJREVUDQ) rule with 3 text fields where note type codes can be entered to filter the notelist expression on the Project Review Report. If all 3 text fields are left blank, the notelist expression on the Project Review Report will print all note types on each project.	Rule Maintenance:PROJREVUDQ

Wiki Link: http://www.abiscorp.com/AdjWiki/RULE-PROJREVUDQ.ashx

Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Purchase Orders

| 29777 Subcontractor selection | A setup option (POTGENSUBCON) has been added that will change the Generate Purchase Orders screen to show all vendors with the new SUBCONTRACTOR attribute in the vendor drop down instead of vendors from the vendor part tab of the line items. | Setup Options: POTGENSUBCON |
| Wiki Link: | http://www.abiscorp.com/AdjWiki/rule-setup.ashx?NoRedirect=1#P_15 | |

Quoting

| 29617 Swap RFQ Items | A new screen, Swap RFQ Items, has been created that performs an item code swap across all open quotes for the specified customer at one time. | |
| Wiki Link: | http://www.abiscorp.com/adjwiki/RFQSWAP.ashx? | |

Sales Tax Automation

| 29705 Sales Tax Due Report | An expression for the sales order number has been added to the cursor for the Sales Tax Due - Detailed Backup report. | |

Schedule

| 29845 Task Hover Box | A setup option, SCHPHASE1, has been added that will change the Task Hover Tooltip on the Schedule screen to show details for the linked Project Phase. | Setup Options: SCHPHASE1 |
| Wiki Link: | http://www.abiscorp.com/AdjWiki/rule-setup.ashx?NoRedirect=1#S_18 | |

Adjutant Desktop Release Notes
Version 1712.1712

ECR # Program	Change Description	Option / Rule

Task Management

ECR # Program	Change Description	Option / Rule
29664 UDF Questions	User-Defined questions that are required to be answered before a task save will now automatically appear if a user attempts to save without answering the questions.	
29786 Task Quote Lookup	The Quote field on the Task Master screen has been changed to a text lookup field instead of a dropdown selection. This allows a type-ahead lookup to filter the number of results displayed.	
29834 Task Grid	This change adds a new setup option (RTGRIDWHSEFILT2) that enables filtering tasks on the Task Grid based on the associated Project warehouse.	Setup Options: RTGRIDWHSEFILT2
