Change Description

Option / Rule

Item Control (Inventory)

Processing PO
32618

When using the Processing PO type logic to modify or process a coil, the coil tag information from the base coil will now transfer over to the tag information for the processed coil.

Wiki Link: <http://www.abiscorp.com/AdjWiki/PO%20Processing.ashx>

Manual Shipping
32648

The Manual Shipping and Project Shipping screens will now exclude C-Bin (carton bin) locations unless explicitly allowed via the ALLOWCBINS set up option, which allows carton bins in the bin selection list. Manual Shipping and Project Shipping will default to pulling from the Putaway bin unless USEBINS is turned on.

Setup Options: ALLOWCBINS

Wiki Link: <http://www.abiscorp.com/AdjWiki/rule-setup.ashx?HL=ALLOWCBINS>

Order Entry

Sales Order
32665

A new setup option (SKIPSFLAG) has been added that will skip the query to find out if an item has been sold before when searching for an item on the Sales Order and NEWITEMLOOKUP is turned off.

Setup Options: SKIPSFLAG

Wiki Link: <http://www.abiscorp.com/AdjWiki/rule-setup.ashx?HL=SKIPSFLAG>

Project Management

Project Grid
32662

A new report button has been added to the Project Grid which allows printing the displayed grid results as a report. The new Project Grid Report format can be customized to show any of the column details from the Project Grid screen. The Project Grid report offers a new way to easily share a snapshot of selected projects.

Program ECR #	Change Description	Option / Rule
------------------	--------------------	---------------

Project Management

Project Review Report 32663	A new checkbox (Phased Alternate Sort) has been added to the Project Review Report that will change the report's sort order to be by Salesperson, then by Week Of, then by Phase Load Date. A new variable (OSLIST) has also been added that will display a list of the linked Shipping Event Onsite Dates.	
--------------------------------	---	--

Shipping Events (Logistics)

Load Shipping Event 32508	The new SEBOTRANS setup option will prioritize displaying the Backorder highlight color over the Transfer Item color in the Load Shipping Event screen when an item is both Backorder and Transfer.	Setup Options: SEBOTRANS
	Wiki Link: http://www.abiscorp.com/adjwiki/rule-setup.ashx?HL=SEBOTRANS
