

Program/Change ECR #	Change Description
-------------------------	--------------------

MBS/Roll Former Integration

MWF Integration 39578	Adjutant will now pass the answer to the configuration question with Report Code "TR" (for truck), brought in by column U on the Member tab of the MWF Import, into the AMSORDER.truck and AMS_Orderin.truck fields.
--------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

All additional text formatting has been removed for the Truck and Bundle columns from the MWF import.

Order Entry

Point of Sale (POS) 39844	The Point of Sale (POS) screen has been updated to use the Cash Balance from the Sales Order as the default Payment amount regardless of which Cash Balance Calculation logic is being used.
------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Quoting

Quotes 39886	The Discount/Markup logic that looks for custom "SUR-ITEMCODE-X" organization attributes has been expanded to work on the Quote Screen. This logic was originally designed to only work from the Sales Order screen.
-----------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

** Additional information for the Setup Options, Rules, and Programs areas

Setup Options:

Setup Options are system-wide controls that must be enabled/disabled in CID Maintenance. Some Setup Options will not display until the related application has been accessed. Contact your consultant for assistance with enabling/disabling Setup Options.

Rules:

Rules are added or updated in the Rule Maintenance screen. If you are not familiar with adding or updating Rule Maintenance headers or details, contact your consultant for assistance.

Programs:

Programs are system-level routines that must be updated manually by ABIS personnel. You must contact your consultant to coordinate updating the associated Program before taking advantage of the enhancement.

Program updates may require system downtime, or may be required to occur outside of business hours.

Total Number of Changes: 3
