Adjutant Desktop Release Notes
Version 2502.2116

Program/Change ECR #	Change Description

Shipping Events (Logistics)

Order Alerts (WTIMER) 44474	The logic around setting the WTIMER alert steps around sales orders with interplant production transfers has been updated to flag the timer when transferred items are updated to the final warehouse destination on the interplant transfer. A new 'Check WTimer Status' utility has been added to the Sales Order F9 menu to check for any issues that would prevent the alert timer from starting.

Programs**: FOXPROCESS

System Manager

Twilio Support on Desktop 43612	Support has been added for using Twilio to send SMS text messages from the Desktop platform when using the SMSUPDATE feature. Using the Twilio service to send SMS text messages requires the a Twilio account and setup of the TWILIO Rule Maintenance screen with the Twilio account details for integration.

** Additional information for the Setup Options, Rules, and Programs areas

Setup Options:	Setup Options are system-wide controls that must be enabled/disabled in CID Maintenance. Some Setup Options will not display until the related application has been accessed. Contact your consultant for assistance with enablling/disabling Setup Options.
Rules:	Rules are added or updated in the Rule Maintenance screen. If you are not familiar with adding or updating Rule Maintenance headers or details, contact your consultant for assistance.
Programs:	Programs are system-level routines that must be updated manually by ABIS personnel. You must contact your consultant to coordinate updating the associated Program before taking advantage of the enhancement. Program updates may require system downtime, or may be required to occur outside of business hours.

Total Number of Changes: 2
