Adjutant Release Notes

Version 1107.509

ECR #	Type	Module/Program	Requested Change:	Change Summary:
19737	New Feature	Logistics (Shipping Events) Shipping Events - Marked as Shipped	Create new report to show records in seship table for a given Sales Order.	Work on SE SHip record viewer ;
19616	New Feature	Order Entry Pull from Stock	For stock, production items, when I submit to production, add another column (and a field in sotran) that says "Pull from Stock." If order qty is 20, have 10 available, then the Qty to Produce would be 10 and the Qty to Pull from Stock would be 10. Print new pull from stock expression that on the pre-load report. Add the field to sotran, add the column to S2P, add the val to cursor of pre-load, add the val to cursor of printso, add a column to SO line item and Quick Line.	Add PullFromStk to sotran table. Add to S2P screen. Populate with Avail qty, adjust Qty2Make based on value ; Update pullfromstk on S2P. Add to Print SO and Pre Load report cursors. Add to line item grid and quick view grid.
19759	Enhancement	Order Entry Sales Order Cost	Add new setup option (SOBASECOSTL) to Sales Order screen that always shows the basecostl value instead of cost. Change Gross Margin fields to display margin according to basecostl values.	Add setup option SOBASECOSTL. If enabled, show a new basecostL field in place of the normal cost field in edit mode (Field is always readonly since basecostL cannot be changed once the line is saved.) If option is enabled, use basecostL value in Line margin calc
19862	Enhancement	Order Entry Shipment By State Report	Add SO#, SODate, Ship Date in cursor.	Added somast.sono, somast.sodate,sotran.shipdate to cursor
19854	UI / Usability	Procurement Expediting	Exclude PO lines from grid/report where Qty Open is zero.	Exclude qtyrec>qtyord from grid and reports
19845	UI / Usability	Production Production Work Order	For make-for-stock work orders, change PWO assembly logic to assemble items into the probin instead of the pwobin.	Yield Bin defaults to ProBin for build for stk PWOs. Item is assembled into Yield Bin

ECR #	Type	Module/Program	Requested Change:	Change Summary:
			adjchange[db,mlt001]	
19851	UI / Usability	Quoting RFQ - Won Lines	Show won lines differently If you make a RFQ with 2 lines, and win line 1, then come back later and win line 2, it looks like line 1 will convert again (it will not) Show line 1 as won (lock won box, change color etc.)	Set qtywon to qtyord-qtyconv If won is checked/unchecked, set qtywon back to qtywon-qtyconv
19860	Enhancement	Task Management Quick Task	Add spell check button to Notes area of Quick Task (support) screen.	Add spell check button to notes on Quick Task Screen

Total Number of Changes: 15
