

Version 1202.753

ECR #	Type	Module/Program	Requested Change:	Change Summary:
20671	UI / Usability	Accounts Payable Print AP Checks	Changing CID's locks new CID, but does not unlock old one. Change to release old CID lock before making new one.	Change logic to unlock current CID when changing CIDs on Print Check Screen ;
20666	Enhancement	Accounts Receivable AR Aging Report	Add option to age invoices by Billing Cycle (month and year). Logic should use last day of bill cycle as age from date. If bill cycle is blank or in different format than month and year, then use invoice date as the age from date.	Add 'Age from Bill Cycle' option to report. If selected, and Bill Cycle is in MMMM YYYY format, change Aging date to last day of matching month/year. If not in correct format, or blank, use invoice date as aging date.
20562	UI / Usability	Coil Tracking/Processing Modification Processing	Wrap output processing in transaction to handle cases where process does not finish. (task ends, network connection issue, error etc.)	Add new step to check actual input total cost vs output cost. If they don't match, adjust output cost using ratio of org output cost vs total output cost. Use this ratio with input cost to calc new input cost
20665	Enhancement	Coil Tracking/Processing Gross Margin by Profile	Add filter for Warehouse. Add group by Warehouse option.	Add Whse Filter Add option to sort by whse. Create new report with Whse Groups
20662	Minor Bug	General Ledger Trial Balance	Remove 'Total' row from Trial Balance export. Total is plugged as 0 even when the balance isn't 0.	Remove total line
20680	Enhancement	General Ledger Trial Balance	Change trial balance report to export balances into debit and credit columns instead of all into one column.	Add BegBal, YTDDebit, YTDCredit, CloseEnt Columns to export Balance = BegBal + YTDDebit - YTDCredit + CloseEnt
20669	Enhancement	Import/Export Manager Item Master Import	Add check for illegal characters in Item code field.	Add check for invalid chars based on ITEMSPECCHAR Setup option

Version 1202.753

ECR #	Type	Module/Program	Requested Change:	Change Summary:
20676	Enhancement	Item Control (Inventory) Lot History Report	Change Item field to be searchable. Change Lot field to be searchable based on Item selected.	Add Lookups for Item and Lot
19870	Enhancement	Production Print Production Work Order	Show specific BOM info on multi work orders. Helpful in coil production where production revolves around one single coil that will be used to create many different products.	Add new BOM4 function to add assigned info into bomlist cursor when running in Multi Mode; Add fields from coil jump and coil receipt to c_pwodetail and bomlist cursors;
20664	Enhancement	Production Trim Genius	Change input mask on Input Girth field to 99.9999. Change Trim Genius to remember settings of WheelCount, Max Length, and Input Girth for each user.	Change Girth to 99.9999. Save/Load Wheel Count, Max Len, Input Girth to save by user/CID.
20672	Enhancement	System Manager Save/Copy Grid Settings to other Users	Add tab to allow copy of grid settings to other users.	Add new tab with user list and update button. Will copy current saved grid settings to selected users. If you change your grid, get out of the screen and back in before copying to other users. Grids are not saved until screen exit, so copied grids will be your older ones. ;
20684	UI / Usability	System Manager AR Security Tokens	Break out ARREPORT1 screens into new security token groups. GMARGIN - gmargininv, gmargincinv, gmarginso, jcpyinv ARREPORT2 - arpastdue, arstate, printcashar, printcashdist, cashcustan SALESTAX - shiptotax, taxreportomit, taxreport, taxexport, taxcreditprt, ttableinuse MBMAREPORT - mbmaqcompare, mbmareporting Also, move invoaha to ICREPORT1 token.	Change tokens for Screens GMARGIN - gmargininv, gmargincinv, gmarginso, jcpyinv ARREPORT2 - arpastdue, arstate, printcashar, printcashdist, cashcustan SALESTAX - shiptotax, taxreportomit, taxreport, taxexport, taxcreditprt, ttableinuse MBMAREPORT - mbmaqcompare, mbmareporting invoaha to ICREPORT1 token.
20678	Enhancement	Time Billing Approve/Edit Billing	Change contract field to be sorted alphanumerically.	Change contracts to sort in Contract Name Order;

Total Number of Changes: 13
