

ECR #	Type	Module/Program	Requested Change:	Change Summary:
21831	Enhancement	Accounts Receivable Print Invoice	Set cursor on Output button when called from AR Invoice Master.	Set focus to output button if invoice numbers passed in.
21815	Minor Bug	Logistics (Shipping Events) Unload Carton	Check Backorder report when unloading plain transfer items. When printing a backorder allocation report after receiving a transfer, the description & order numbers are not correct. This only seems to be doing it on transfers, not PO receipt.	Change logic to have correct items and descriptions on transfer items not linked to SOs
21836	Enhancement	Logistics (Shipping Events) Carrier Name	Add carrier name from SO and from Shipping Event to cursor of pre-load and post-load reports.	Added carrier name from SO and from Shipping Event to cursor of pre-load and post-load reports.
21832	UI / Usability	Order Entry Quote and SO Notes	Change Quote screen to reload note icon color when Header tab is clicked. Current logic does not refresh note icon, so if line does not have a note and header does, then clicking from Line Items to Header makes the header look like it doesn't have a note. Change Sales Order screen to exclude somast.rfqnotes for note icon color change.	Add logic to refresh note button color when switching from line item to header tab based on note filled out status. Change SO screen to not count RFQ note when coloring note button
21834	UI / Usability	Production Print PWO	Print PWO generates error in Message Control if user tries to print a PWO with no line items. Trap error and notify user.	Add keyno1 to BOMLIST cursor. Add blank record to BOMLIST and PWODETAIL cursors if no line items
21835	UI / Usability	Production Sales Order - Custom BOM	Check for existing BOM when clicking on BOM button in add mode (setup already during this add cycle). If found, load this BOM and don't ask Copy/Use/Blank question.	Added check for existing BOM when clicking on BOM button in add mode (setup already during this add cycle. If found, load this BOM and don't ask Copy/Use/Blank question).
21833	Minor Bug	Purchase Orders Print PO	Template details do not change if printing more than one PO using PrintPO template in a loop	Close zpomast and zpotran after template is created (they are reused if left open);

ECR #	Type	Module/Program	Requested Change:	Change Summary:
21826	Enhancement	Quoting RFQ Screen	Add shipinfull logic and checkbox to RFQ screen. Change convert quote to transfer shipinfull flag.	Add shipinFull checkbox and logic to RFQ screen. Change ConvertRFQ to move flag to SO on convert. ;
21821	UI / Usability	System Manager Rule Maintenance	Add columns into grid for text7 thru text10. Add columns into grid for Num4 thru Num10 Add columns into grid for log4 thru log10. Change all column headers to specify the label given to the field (some say 'Header1'). If no label is given for the field, then specify the corresponding text/num/log number.	Add columns for all text, num and logs change order to text, num then log. Add sorts for all texts. Change all column headers to correct caption based on selected rule.
