ECR #	Type	Module/Program	Requested Change:	Change Summary:
22147	Enhancement	Address Book People Air Hammer	Invoice drilldown from invoice tab passes SO number instead of Invoice Number.	Change detailed invoices tab to call print invoice screen with invoice number instead of SO number.;
22148	Minor Bug	Invoicing/Shipping Print invoices	ShipTo looked up by SO# without CID flag, so can be incorrect if duplicate numbers between CIDS.	Change Print Invoice to use CID to find matching SO to get shipto info. change PDFmaker also.;
22131	Enhancement	Item Control (Inventory) Item Find screen	Change logic to only use Resell = 'y' flag if called from SO/RFQ screen	Change SO and RFQ screens to pass in calling screen to FINDITEM screen. Change FindItem to only filter on resell = 'y' if called from SO or RFQ. Show resell = 'n' if called from other screens.;
22135	UI / Usability	Item Control (Inventory) Inventory Adjustment	Adjustment screen warns user that bin is incorrect, but does not force the user to change it and will allow the adjustment into the invalid bin. Change logic to tell user that bin is invalid and then clear the field.	Change logic to No Matching Bins, and blank the field out. Make same change on transfers tab
22139	Enhancement	Logistics (Shipping Events) Post-Load Report	Change post-load report combo box to show carton name first, and then carton location when selecting which truck to print.	Change dropdown to show CartonName, Location and Carton ID. Make same change in sepost2 (newer version that supports drop number sorting)
22141	Enhancement	Logistics (Shipping Events) Pre-Load Report	Change Pre-Load report to sort first on drop number descending. Then sort by department ascending. Then sort by SO#-Line#. Page break by drop number.	add dropno to main cursor. Add setup option to sort by dropno (SEPREDROPORD). Add logic to copy dropno from shipto cursor into main cursor.
22132	Enhancement	Task Management Schedule	Change schedule tooltip to state the linked Project Number and Name on first line of tooltip (if it exists).	Change tip to have Proj: Number-Name if linked to project
22137	Enhancement	Task Management Task Grid	Add Standard Task Name next to Task Code on StdTask list in Task Grid.	Add Task description next to task number in popup list;

ECR #	Type	Module/Program	Requested Change:	Change Summary:
22149	UI / Usability	Time and Materials Time and Material Entry	Equipment tab shows phantom lines.	Change equipment tab to not show phantom lines.;
22145	Minor Bug	Web - Enterprise Tools Expense Report Lookup	Error on Expense Report Lookup.	Updated expense report lookup function, adding code to declare url.allres variable with default value. Testing done after changes.;
22130	Enhancement	Work Flow Routing Route Maint Screen	Add audit logging to screen (Both header and details).	Add audit logging for changes. Add F11 to show log;
