

## Version 1304.1042

ECR #	Type	Module/Program	Requested Change:	Change Summary:
22325	Enhancement	Accounts Payable Print PrePay Check	Change alignment test to remove LA_arrays. Change screen to allow printing multiple checks (Reset button).	Change logic to allow printing multiple PrePaid checks without closing screen between each one. Change logic that loads checkforms when switching between Normal and Prepaid to load correct set of forms. Change alignment test to only create needed LA_... fields (The created fields will match the check type) Change alignment test to skip overflow stub on prepaid checks.
22320	Enhancement	Accounts Receivable Apply Cash Receipts	Change TransDate field to check posting window on lost focus.	Check posting window on lost focus of Trans Date, warn but do not stop if outside.
22321	Enhancement	Accounts Receivable Cash Receipt	Apply cash to credits also when transferring down (will increase remaining balance).	Mark credits as fully applied when transferring down (will increase the unapplied amount)
22329	Minor Bug	Logistics (Shipping Events) Auto Generate of SE from SO/RFQ	Ensure all needed events are created (SESO-ADD- and SESO2-ADD-).	Add logic to generate SESO-ADD and SESO2-ADD events to places that create SE's during generation. (SO screen, Convert RFQ and EDIPO)
22323	Enhancement	MBS Integration MBS Grid Import	Set the Lock Price flag in sotran when a new order is imported.	Set the Lock Price flag in sotran when a new order is imported.
22326	UI / Usability	System Manager Adjutant Database Update	Only show data update errors at ABIS or if ABIS Admin User (they don't affect client installs).	Change update screen to only show errors if ABIS user, or running on ABIS or DEMO;
22319	Enhancement	Task Management Task Entry	Clear Backcharge and flat rate fields on Details tab when adding a new task.	Clear backcharge, flat rate fields on new task entry.
22328	Minor Bug	Task Management Auto Schedule	Auto Schedule tool not adding all assignment alerts.	Wrong ResID/ContId passed to AddSplits. This was preventing the adding of StandardTask based alerts when usnig auto-sch. Change AutoSch to pass value.;

---

ECR #	Type	Module/Program	Requested Change:	Change Summary:
22324	Enhancement	Work Flow Routing Route Screen	Do not allow save of route with blank name.	Verify that route cannot be saved without a name. Add query to database update to delete any routes that have blank names.
