ECR #	Type	Module/Program	Requested Change:	Change Summary:
22463	Enhancement	Accounts Payable Non check Payments	Add setup option (APDUPREFNO) that checks for and warns user of duplicate reference number on Non Check Payments screen. Check for duplicate on lost focus of field.	Add new setup option APDUPREFNO, if set check for dupilcate ref# (checkno) on apnoncheck payment screen. Warn if duplicate found
22252	Enhancement	Asset Tracking Asset Summary report	Add filters to Asset Summary report: - Name - Based On - Owner (custno and name fields, searchable) - Current Location (custno and name fields, searchable) - Department - Asset Type Add all rtasset fields into cursor. Add UDF expression (pull fields from asset UDFs).	Add/Verify Filters TagID Range, based on, owner, current location, dept, asset type Add all rtasset fields to cursor. Setup udf cursor, use getudfans3("CIMFG1","UDF1",1,tmpitem.keyno) to access values CIMFG1 is rcode 1 is answer 1
22461	New Feature	Asset Tracking Crane Inspection - Issues Report	Add new option to print list of issues only on Crane Inspection Report.	Add new Issues only report option. Run logic/format like detail report, but remove anything that is not an issue Current issue logic is question1 = 'caution / do not use' Or question2 = 'safety related / code violation')
22469	Enhancement	Asset Tracking Asset Generation	Check various asset generators to ensure wod is the wod.keyno value of the PWO that created the asset (Or zero).	Change SO screen to use WOD keyno as value in rtasset.wod when generating Production assets from s2p logic.;
22470	Enhancement	Configurator Configurator - FT-Inch	Change Ft-Inch field on SOC screen to convert inch values over 12 into feet and inches (on lost focus of fractional inch field).	Change Ft-In box to convert Inch value to Ft-In if In value is >12. If entered inch value is 124, convert to 10 ft, 4 inches.;
22087	Enhancement	EDI EDI PO screen	If CutLength option is used, and item has BOM, recalc cost using BOM Cost logic.	Add logic to call bomcost functions, and use returned cost if non zero, and cut length option is used on line.

ECR #	Type	Module/Program	Requested Change:	Change Summary:
22472	Minor Bug	Invoicing/Shipping Tax rates for exempt/no-nexus	Check logic for billtran updates of taxated. Should be zero if taxtable is Exempt or NoNexus, but is not in some cases.	BillTran taxupdate not using 0 return rate (if calctaxrate returned 0, and sotran had non zero rate) Change logic to use return from calctaxrate in all cases.
22421	Enhancement	Item Control (Inventory) Serial/Lot Number Change	Serial/Lot Number Change (Transfers and Adjustments screen) updates all lots that match OHF in costsi table, regardless of quantity and bin. If same lot exists in multiple bins in the same warehouse, all lots are updated in costsi table. Change logic to update based on qty and/or run the 'Update Cost Tiers' program after the lot is changed.	Add logic to remove correct qty from cost tiers, and then add back cost tiers (old lot/serial to new lot/serial)
22462	Minor Bug	Order Entry Print SO	Print SO Error during logo copy	Add error trapping to logo copy;
22467	Enhancement	Purchase Orders Order Entry - Linked PO	Add potran.estdate as a column to the Linked PO's grid on the Sales Order.	Add POTRAN.estdate to Linked PO grid. Load estdate on inital load of SO.
22468	Enhancement	Purchase Orders POLATE notice	Add more information to the task note. See example below: SO# 12345 SO Line# 2 SO Item: WIDGET SO Line Load Date: 05/15/13 PO# 9876 PO Line 4 PO Item: WIDGET PO Line Est Date: 05/17/13	Expand data in rttask.note to include more data in rttask.note (SO#, SO Line#, SO Item, SO estdate, PO#, PO Line, PO Item, PO estdate)
22266	Enhancement	Task Management Open/Completed Tasks on Task Entry	Add more information to Open/Completed Tasks windows: OPEN - Department - Work Category - Add Date	Add new fields to girds. Create new screens to allow saving of grid settings. Save max state.; Change logic to load matching soldto/billto/shipto based on button clicked.;

ECR #	Type	Module/Program	Requested Change:	Change Summary:
			- Due Date - Resource - Priority COMPLETE - Department - Work Category - Add Date - Complete Date - Completed By - Resource - Priority Remove Comp% from COMPLETE. Sort OPEN by adddate descending. Sort COMPLETE by compdate descending. Change grids to size with window. Change to remember grid settings. Change to remember window size (if maximized). Change default window size to fit new columns.	
22464	Enhancement	Time and Materials Weekly Timesheet and Resource Time	Add Project Type and Project Status to cursor of Weekly Timesheet and Resource Time Summary reports.	Add fields tcode,scode,projstat and projtype to weekly timesheet cursor Add fields ptcode,pscode,projstat and projtype to resource time summary cursor (Detail mode)
