ECR #	Type	Module/Program	Requested Change:	Change Summary:
22564	Enhancement	User Defined Fields UDF Form Import/Export Logic	Check logic for import/export of UDFs from TaskQuest/Group screen.	Add QLong to Question Tab. Change layout and tab order of Question Tab. Change import/export to alert that it must be ran from Forms Tab. Change import logic to match on question and rcode if rcode filled out.
22566	Enhancement	Item Control (Inventory) Item Swap	Add Queries to update other tables if item is not Misc. (SOtran, rfqtran, potran, pobtran, itemtrack, itemact, itemtran)	Add logic to update sotran, potran, rfqtran, pobtran, itemtrack, itemtran,itemact with new item if not misc item
22574	Enhancement	Order Entry Quote and Sales Order lines	Change right-click on Item link to open Item Air Hammer to Sales Orders tab instead of first tab (tasks).	Change ItemAir Hammer to allow open to specific tabs. Open to SO tab from SO screeen, RFQ tab from RFQ Screen. Change tab font to 8-Bold
22575	Enhancement	Production PWO Assignment Catchweight	Add logic and fields that will allow a user to enter in a catch weight unit when assigning an item to a PWO. This will work similar to the CW fields on the BOM screen: User goes into PWO, clicks on either of the assignment fields. User only has qty of the item in lbs, but the item is set up in system for SQFEET. Item has been previously set up with catch weight conversions for lbs. User enters in the amount of lbs in the catch weight (lbs) qty field, qty field auto calculates amount(SQFT).	Add CW Qty and Unit Fields to both Non S/L tab, and S/L tab. If item is CW item or Coil, allow entry of CW qty, and convert to matching Stk Unit Qty;
22583	Enhancement	Time Billing Bill Cycle Work Detail Report	Create new report per attached example. - Billed service orders only. - Report is by Bill Cycle - Sorted by district, then work category, then service order, then street name, then streetnum. - Grouped by District, then work category, then address.	Crete new report per sample and spec.
22588	Enhancement	Project Management Project Control - Production	Create new tab on Project Control named Production Estimates.	Create new screen to show grid of ProdEst data for all projects. Allow edit in grid, filter on Dept, Whse and

ECR #	Type	Module/Program	Requested Change:	Change Summary:
		Estimates	Fields on screen are: Plant, Department, Qty (EA), Qty (FT), Qty (LBS), Date, Note (100 char). Create new table to hold data (keyno, plantid, dcode, qtyea, qtyft, qtylbs, date, note, adddate, adduser, editdate, edituser).	Date. Show sum of qty fields for selected date at bottom; Create new tab on Project Screen. Show grid data, allow add/edit/delete; Add Print Button to ProdEst screen, create report for screen.;
			Create new screen, Production Estimates, that shows data across all projects with the following filters: Plant, Date Range, Department. Allow user to Edit in Grid: plant, date, qty (ea, ft, lbs), note.	
			Create new report that runs off of data from new screen (per attached example).	
22590	Enhancement	Address Book Organization Air Hammer	Change Assets tab on Organization Air Hammer to show assets that match rtasset.custid and rtasset.curloc. Add these columns: Asset Type, Department, In Service, In Service Date, Last Inspection Date, Owner, Current Location, Sub Location, RFID. Add sort orders to each column. Remove Equipment and EquipID.	Add new columns to asset tab. Add sorts to all columns. Change query to get both items owned by org, and at org location.; Add drilldowns on company columns
22593	Enhancement	Custom Reports Production Schedule Report (pwosch)	Change astrlbs and astrpcs expressions to handle new structural departments (S1 thru S8) . Add expressions for new msnprodest table (prodestxxea, prodestxxlbs, prodestxxft - where xx is dept code).	Change old ST dept reference to OR group of S1 to S8; Add new peXXlbs,peXXft,peXXea fields (where xx is the dept code), Fill out from MSNPRODEST data; Add logic to fill out petotea,ft,lbs fields; filter MSNPRODEST data by date and loctid if entered
22594	Enhancement	Task Management ECR button on Task Punch	Change screen to copy attachements from task to ECR doc vaults.	Copy all files in drop folder to ECR drop folder. Change task screen to show blue arrow on docvault icon if documents in ecr drop folder, but none in task drop folder Right click on docvault icon will open ecr docvalut
22596	Enhancement	Production PWO SOPDESC field	Change logic to match SO SOCDESC fields.	Change SOPDESC logic to match PrintSO logic.;

ECR #	Type	Module/Program	Requested Change:	Change Summary:
22598	Minor Bug	Quoting RFQ Screen	County is not reloaded on load/scroll of quote screen	Change RFQ screen to load county from shipto record on Load of Saved Quote.;
22599	Enhancement	Mail Reader AP Voucher Email Reader	Add logic to handle duplicate attachments in same email (some attachments are embedded and attached) Run md5 hashes, and exclude duplicate hash values.	Add logic to hash attachments and embedded images, and only save unique ones from each email.;
22600	Enhancement	Coil Tracking/Processing Coil Finder	Add PNum (trackno) to grid.	Add Pnumber to gird, add sort;
22607	Enhancement	Logistics (Shipping Events) SE Viewer - Orders w/o SE	Change logic to exclude template type sales orders. Change logic to exclude null values in sesono.keynoh	Change queries to exclude sesono.keynoh = null records. Exclude template type sales orders;
22608	UI / Usability	General Ledger Financial Report Writer	Copy Report and Copy Report to other CIDs buttons do not become active again once a report is selected.	Change clear edit to reset active status of copy buttons.;
22609	Minor Bug	General Ledger Financial Report Writer	Formulas and Spaces are not copied when copying a report to other CIDs.	Add logic to copy new glrows table also;
22611	Enhancement	MBMA Reporting MBMA Quarter Reporting	MBMA has asked for the following changes to the report that is being generated though "Quarterly Reporting Date" program. Please see message below and attachments. Please feel free to contact me or Bill Scoble if you have any questions. 1) There needs to be a carriage return at the end of each entry. 2) The amounts need to be reported in thousands of dollars and not actual dollars. For instance $25,000.00 needs to be exported as 25, $1,000,000 needs to be exported as 1000.	Round dollars to 1000's (25250 is now 25) Ensure chr(13)+chr(10) on end of each line.;

ECR #	Type	Module/Program	Requested Change:	Change Summary:
22612	Minor Bug	General Ledger GL Report Writer - Rows Report	GLTYPE not found error.	GLRow report forms have GLTYPE data group, but no GLTYPE in c_output2 cursor. Add gltype to c_output2 cursor, set to blank.;
